Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1, 6, 13, and 16 remain in the application. Claims 2-5, 7-12, 14, 15, and 17 have been canceled.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1, 6, 13, and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Shaw. Shaw discloses a water surface vehicle comprising a gondola housing section 2 having bow and stern ends with external foils 10 located midway between the bow and stern ends to provide lift in water at sufficient speed; the gondola housing section mounts a propulsion system 8 at the stern end; a superstructure hull H1 located entirely above the waterline at certain speeds (figure 5); and a strut 3 connecting the gondola housing section to the superstructure hull. The strut mounts the superstructure above the stern end of the gondola housing section and the propulsion system, and indirectly also mounts the rudder 25. Shaw teaches that the rudder may be mounted on the strut (figure 21).

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are

such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 13 and 16 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shaw. Shaw discloses the structure substantially as noted in the previous paragraph with regards to claim 1. Shaw discloses several embodiments of his vehicle, and in the arrangement of 21 teaches that the stern rudder 25 may be installed on the strut 3. In view of this teaching it would have been an obvious expedient to mount the rudder on the strut, generally as taught by Shaw.

Response to Arguments

6. Applicant's arguments with respect to claims 1, 6, 13, and 16 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
